- ServiceMinder brushes eliminate guesswork and stop the tool when preventative maintenance is required

Product Description

The Bosch 1810PS has the power and performance needed for any power carving applications that specify a 4-1/2" angle grinder. The Bosch 1810PS features a paddle switch with lock-on mechanism for better operator comfort and control. The vibration control handle reduces vibration up to 60, providing uncompromising comfort for extended periods of work. The sealed switch keeps debris out of the switch mechanism and extends switch life. To eliminate maintenance guesswork, Bosch has incorporated Servi
